

OSSAA ZOOM MEETING WITH ADMINISTRATORS-JULY 20, 2020—COMPILED CHAT Q AND A

- 0:14:17 From Matt Hennesy : What constitutes an outbreak... 1 player or a % of team.
- 10:15:20 From William George : where is the survey that the superintendent is supposed to fill out.
- 10:15:54 From OSSAA to Amy Cassell (Privately) : Will todays survey go out to the voting delegate out superintendent, I am being asked by and AD via text?
- 10:16:05 From Steve Moss : Survey will be emailed to Superintendent's this afternoon
- 10:16:58 From Ryan McKinney : So if a student at the MS level is taking 100% virtual can they come after school to participate in athletics? Because athletics is after school at the MS level.
- 10:17:20 From Tammy Jensen : In regard to high schools that do NOT have activities/athletics during the school day?
- 10:17:45 From Richard Haynes : What about a student on a TRANSFER just coming to school the hour of the activity? Does this begin to open the door EPIC was trying to go through for recruiting? Thanks for your help.
- 10:18:18 From Todd Ware : The participation in extracurricular for a total virtual student is still ultimately up to local district? Or does your policy over ride local as a member?
- 10:18:31 From Marty Coulson : What would be your recommendation for parents/fans entering stadiums as spectators this Fall?
and a member school at the same time.
- 10:18:51 From Matt Myers : We are wondering about spectators as well.
- 10:19:19 From OSSAA to Amy Cassell (Privately) : Your chat messages are going to me, not the folks asking
- 10:20:09 From Karis Reavis : Superintendent only
- 10:20:19 From Karis Reavis : email
- 10:21:10 From Mike Martin : Why do we need to follow colleges? It is very easy for them to postpone until Spring because they don't share kids.
NOT ANSWERED LIVE: IT WOULD BE VERY DIFFICULT TO VALIDATE TO PARENTS THAT A COLLEGE STUDENT IS NOT SAFE FOR PARTICIPATION, GIVEN ALL THE RESOURCES THEY CAN PROVIDE TO KEEP A STUDENT SAFE. AT THE HIGH SCHOOL LEVEL, THE RESOURCES ARE SIGNIFICANTLY MORE LIMITED. WE WILL ONLY MAKE ADJUSTEMENTS IF NECESSARY.
- 10:21:16 From Amy Cassell : Todd Ware- Yes local school decision
- 10:21:41 From Amy Cassell : A student must be enrolled in the member school, using the member school's online curriculum, they cannot be enrolled at Epic and a member school at the same time.
- 10:22:19 From Amy Cassell : Tammy Jensen—the student is considered to be at school if they attend practice on-site, even if that is after the school classes have dismissed.
- 10:22:35 From Tracy Blasengame : It is difficult to explain to parents why OSSAA may shut down activities, but AAU and USSSA are in full swing with very few restrictions.
- 10:23:17 From Bobby Cook : AAU and USSSA are not state/gov't entities I don't believe like school districts

10:24:19 From Paul Gruenberg : To clarify, if a student chooses school curriculum and is online, they can participate if at school for at least one hour? Would that include the athletic hour?

10:24:44 From Amy Cassell : Yes, it would include athletic during the school day as well as practice after school

10:24:45 From Karis Reavis : What about flipping football and baseball seasons

10:25:05 From Karis Reavis : If football has to be postponed

ANSWERED BY DAVID JACKSON ON MEETING—WE ARE NOT CONSIDERING THIS OPTION, WE WILL WORK TO GET ALL SEASONS COVERED IN SOME FORM

10:25:16 From Gil Cloud to Amy Cassell (Privately) : How about non-athletics activities?

10:25:40 From Justin Kana : flipping football. all

10:25:55 From Matt Myers to Amy Cassell (Privately) : Hi Amy! So the spectator question will be answered after the Supt. survey goes out?

10:26:08 From Justin Kana : flipping football qn

10:27:01 From Amy Cassell : Yes, the survey will answer a lot for all of us

10:27:14 From Mike Martin : You can't just flip baseball and football. You must consider golf and track.

10:29:35 From OSSAA : As to non-athletics, right now we are also planning on having marching bands, one-act plays, academic bowl etc, providing that the facilities will allow us to have those activities. A survey is going to be sent out to some of the fine arts teachers this week asking for some input.

10:30:57 From Jerry Needham to Amy Cassell (Privately) : will you be able to send out all the question and answers to membership? Think it would help trying to listen and read. LOL not good.

10:31:43 From Amy Cassell : Virtual students are eligible provided: they are enrolled at the member school; using the school's online curriculum adopted by the local school board; the school has a means by which to track progress and grades; student is on site on hour per day

10:32:14 From Amy Cassell : Yes! I can compile and post

10:32:19 From Doyle Edwards : Will the OSSAA address whether schools will or should play in an activity when a school is shut down or in virtual school mode because of Covid-19 outbreak?

10:34:14 From Jason Simeroth : The basic virtual programs are not NCAA compliant, make sure that you understand the requirements. With Edgenuity you have to have their teacher teach the class to be compliant. That is an additional cost.

10:34:57 From Jeff Fletcher : In football, if a district game is cancelled does that mean that points will not be used for district placing?

10:36:00 From Jason Parker : Will everything stay in place even if schools push back start dates?

10:36:10 From Jerry Needham to Amy Cassell (Privately) : just a clarification. is the one hour per day that is required to be in class only during the school day? Or after school practice counts?

10:37:06 From Amy Cassell to Jerry Needham (Privately) : After school practice can count too

10:37:50 From Amy Cassell : Jason Parker- yes, that is the current plan

10:37:58 From Tom Ferguson : I understand the EPIC idea, and I understand the OSSAA rule for students participation that are being virtually homeschooled through the school district, my question is, is it local control for a district to allow student participation if they are not attending class at the school. More than just appearing to athletic hour?

10:39:27 From David Glover : Tom Ferguson.....The student must be enrolled in your school and grades transcribed to your school to be eligible to compete.

10:39:41 From Amy Cassell : Yes, the requirements are: student must be enrolled at member school; using the school's online curriculum as adopted by the local school Board; must have system in place to monitor progress and grades; be at school a minimum of one hour per day

10:40:31 From Tom Ferguson : So a local district can not over ride this policy?

10:40:58 From Amy Cassell : a local school could be more restrictive, but not less restrictive

10:41:30 From Tom Ferguson : That helps, thanks

10:42:22 From Bobby Cook : W/L % would include "non-district" games or ONLY district games?

NOT ANSWERED LIVE: WOULD ONLY INCLUDE DISTRICT GAMES

10:42:42 From Dale Condict : Does "shut down" mean going totally virtual or completely shut down?

10:43:19 From Amy Cassell : Policy 56 addresses what "closed" means.

10:44:28 From Kevin Sims : Thank you for doing this Mr. Jackson and OSSAA staff!!

10:46:58 From Tammy Jensen : Thank you David and OSSAA for communicating with us.
