3. Arriving and leaving the place of the game. The home team must furnish adequate protection for the visiting band while in the stands as well as when arriving and leaving the place of the game.

- B. FOOTBALL** - School bands or musical groups. According to National Federation Rule, a standard halftime length will be 20 minutes. By mutual consent of the 2 teams, the halftime may be shortened to as little as 10 minutes, but no less. It is the responsibility of the host school to contact the principal or band director of the visiting school no later than Monday the week of the game to see if the visiting school is bringing its band and if the band plans to march at half time, pre-game or post-game. NOTE: It is common courtesy for the visiting director to contact the host school's director, if the visiting school is bringing their band, and the visiting school's director has not been contacted by the host school's director. Equal time must be allowed for both bands to perform. Both bands must be allowed the opportunity to march at half time if they can perform and clear the field in twenty (20) minutes. The only exception is if the half time is being used for homecoming activities; or both bands cannot perform and clear the field in twenty (20) minutes. In this case, the visiting band must then be given the opportunity to perform at pre game or post game. The host school will need to find out the size of the visiting band and the length of the show if the band plans to march at half time, pre-game or post-game. ***The following regulation is from the State Department of Education Administrators' Handbook:***

The State Board of Education encourages students to be in attendance in their regularly scheduled classes so that maximum learning can occur. Educational programs are built on the foundation of continuity of instruction and participation in the classroom setting. Consistent classroom attendance can assist students toward development of strong work habits, responsibility and self-discipline. Since the educational merit of the co-curricular program is recognized, the goal of the State Board of Education is to facilitate a balanced education for each student. It is with the above goals and philosophy that the State Board of Education establishes the following attendance/activities regulations:

**210:35-17-2. CO-CURRICULAR AND EXTRACURRICULAR PROGRAMS (SDE)**

- A. Co-curricular and extracurricular programs shall provide opportunities for developing leadership ability and stimulate active participation of all students in appropriate school organization and community activities according to their aptitudes and interests.
- B. Co-curricular and extracurricular programs shall be planned through the cooperative efforts of the teachers and students and shall be organized and administered so as to contribute to the educational objectives of the school.
  1. Students shall not participate in a particular activity more than one period during the regular school day.
  2. A member of the teaching staff shall be in charge of each activity. The sponsors shall be directly responsible to the principal or some person appointed by the administration to direct the activities of the school.
  3. The State Board of Education encourages all elementary, middle, junior high, and secondary students to be in attendance in their regularly scheduled classes so that maximum learning can occur. Educational programs are built on the foundation of continuity of instruction and participation in the classroom setting. Consistent classroom attendance can assist students toward development of strong work habits, responsibility and self-discipline. Since the educational merit of the co-curricular and extracurricular programs is recognized, the goal of the State Board of Education is to facilitate a balanced education for each student. It is with these goals and philosophy that the State Board of Education establishes the following attendance/activities regulations:
    - (a) It is the intent of the State Board of Education that the superintendent or elementary superintendent and local board of education annually review the scheduling of co-curricular and extracurricular activities so that minimal interruptions occur in the instructional program of a student. The Oklahoma Secondary School Activities Association (OSSAA) guidelines related to student eligibility to participate in extra-curricular activities, activity absences, number of games allowed, and length of season shall be applicable to all Oklahoma public schools and students.
    - (b) The maximum number of absences for activities, whether sponsored by the school or outside agency/organization, which removes any student from the classroom shall be ten for any one class period of each school year. Excluded from this number are state and national levels of school-sponsored contests. State and national contests are those for which a student must earn the right to compete. The criteria for earning the right to represent the school in any activity or contest must be submitted in writing by local school sponsors and approved by the local board of education.
    - (c) Each local board of education shall appoint, at the beginning of the school year, an Internal Activities Review Committee. This committee shall be responsible for reviewing and recommending any deviation of the activities policy to the local board of education. Any deviation from the ten days absence rule shall not exceed five days.
    - (d) Each school district shall be responsible for maintaining an addendum to the attendance records to verify the conditions within the school system that apply to regulation (3) (B) of this subsection.

- (e) Procedures for filing complaints are:
  - (1) A signed written complaint must first be filed with the local board of education. If the complaint is not resolved at the local level then the complaint should be filed with the Accreditation Section of the State Department of Education. Upon receipt of the complaint the Accreditation Section shall appoint a monitoring team to make an on-site visit and file a written report to the State Board of Education and Accreditation Section. This complaint must include a list of the name(s) of the student(s), date(s) and class(es) missed which exceed the regulation in (3) (B) of this subsection.
  - (2) The school district shall provide to the monitoring team during the on-site visit the necessary records to verify or deny the violation as specified in the written complaint.
  - (3) The monitoring team shall submit a written report to the superintendent or elementary superintendent and local board of education within 10 school days of the on-site visit.
  - (f) Upon the recommendation of the monitoring team the superintendent or elementary superintendent may be called to appear before the State Board of Education for determination of the appropriate action to be taken. In cases of flagrant violation state funds may be deducted/withheld from the school district.

### XXXIII. TAUNTING

Any form of taunting is subject to additional penalties imposed by the OSSAA beyond an officials ejection or caution.

### XXXIV. NON-DISCRIMINATION POLICY

It is the policy of the OSSAA and its member schools not to discriminate in its co-curricular activities. It is also the policy of the Association not to discriminate with any other practices or interactions that are necessary in the daily operation of the organization.

### XXXV. NOISE MAKERS

**For indoor activities:** Any type of device that plays music, sounds, or voices, and noise makers of any kind such as air horns, cow bells, etc., will not be allowed to function/operate. This will also apply to pre-game/contest and post-game contest activities. This rule applies to both regular and post-season games/contest.

**For outdoor activities:** Noise makers are allowed at outdoor activities unless they interrupt the normal game/contest procedure of announcers, bands, cheer squads, drill teams or any other game/contest related activities. The game officials have the authority to stop the use of any noisemakers or disruptions that interrupt the normal game/contest procedures. This rule applies to both regular and post-season games or contests.

### XXXVI. EMERGING ACTIVITY

Activities not currently sanctioned by the Association may be added as sanctioned events when the OSSAA Staff determines that adding an activity would be to the benefit of the membership across all classifications. Prior to adding any activity, the Executive Director or designee will conduct a survey to determine the interest level for an emerging activity from all member schools across all classifications. Additionally, a feasibility study, conducted by OSSAA Staff will be used to determine how the new activity might impact existing activities.

**XXXVII. NON-TRADITIONAL SEMESTER DEFINITION**

For OSSAA purposes the following definition will apply for those schools on non-traditional schedules. A semester is an approximate 18-week grading period used to divide the school year in half. (Note: Any question concerning a student's eligibility will be answered according to written OSSAA coverage established for the traditional semester schedule.)

**XXXVIII. ELIGIBILITY IN THE SCHOOL OF SCIENCE AND MATHEMATICS (OSSM)**

Any student currently attending the Oklahoma School of Science and Mathematics (OSSM) may retain his/her eligibility in their home district if the local board of education approves such participation.

**XXXIX. SCHOLASTIC RULE FOR TRIMESTER SCHEDULES****A. TRIMESTER SCHEDULE**

1. A student must have received a passing grade in all but one subject to be counted for graduation that he/she was enrolled in during the last block he/she attended fifteen or more days.
2. If a student does not meet the minimum scholastic standard he/she will not be eligible to participate during the first four weeks of the next grading period.
3. A student who does not meet the above minimum scholastic standard may regain his/her eligibility by achieving passing grades in all subjects he/she is enrolled in at the end of a four-week period.
4. Pupils enrolled for the first time must comply with the same requirements of scholastic eligibility. The passing grades required for the preceding 18-week grading period should be obtained from the records in the school last attended.

**B. STUDENT ELIGIBILITY DURING A TRIMESTER**

1. Scholastic eligibility for a student will be checked after two weeks of a trimester and each succeeding week thereafter. The period of probation and ineligibility will always begin the Monday following the day eligibility is checked. Methods should be devised to check weekly grades of Vo-tech students and all concurrently enrolled students.
2. A student must be passing in all subjects he/she is enrolled in during a trimester. If a student is not passing all subjects enrolled in on the day of the grade check, he/she will be placed on probation for the next one-week period. If a student is still failing one or more classes during the next week on the grade check day, he/she will be ineligible to participate during the next one-week period. The ineligibility periods will begin on Monday and end on Sunday.
3. A student who has lost eligibility under this provision must be passing all subjects in order to regain eligibility. A student regains eligibility under Rule 3 with the first class of the new one-week period (Monday through Sunday).
4. "Passing grade" means work of such character that credit would be entered on the records were the semester to close at the time.

**XL. FORFEITURE FOR USE OF AN INELIGIBLE ATHLETE****A. Participation by an ineligible athlete**

Participation in a team sport contest shall result in forfeiture of the contest unless:

1. That particular athlete would have been approved on a hardship waiver had the school filed for the hardship at the appropriate time; a retroactive hardship waiver request must be made to establish that a waiver would have been granted.
2. The student was ineligible at the time due to a transfer from another school, but the student only participated in sub-varsity contests, and the school from which the student transferred: (a) confirms that the *Changing Schools form* indicating that the school did not object to sub-varsity participation would have been signed if the school had been asked at the time of transfer; and (b) has now signed and returned that form to OSSAA.
3. The school demonstrates that the student only suited up for the contest and did not play, and that the student was permitted to suit up for that contest inadvertently or as the result of a court order temporarily enjoining the enforcement of the eligibility rules of OSSAA and the school as to that student.  
If the violation is determined to be the result of the athlete, parent, or guardian falsifying records or information provided to the school, or of relevant information on eligibility being omitted, the athlete is ineligible immediately and will remain ineligible unless and until reinstated by OSSAA's Board of Directors.

**B. Loss of Contests for Participation While Ineligible**

As provided in Rule 7-6, a student who participated in games or matches in a particular sport while ineligible shall sit out the same number of contests in the same sport during that school year.

For example, if a student is determined to have been ineligible when participating in three football games during the season, and three games are remaining that same school year, then the student must sit out the three remaining games. If an insufficient number of contests in that sport remain, or if the ineligible participation is not discovered

until after the season is complete, this sit-out period will extend to contests in the following school year until the student has sat out of the same number of contests. If the student is a senior or does not participate in the same sport in the following season, then that student shall sit out an equivalent percentage of the season in the next sport in which the student would be participating, as provided in Rule 7-6.

#### **XLI. ELIGIBILITY OF STUDENTS NOT RESIDING WITH PARENT OR LEGAL GUARDIAN**

- A. OSSAA Rule 8 provides that, to be eligible for athletics, a student must be residing with the student's parents, or custodial parent, or court-appointed guardian with legal custody of the student. OSSAA recognizes, however, that due to circumstances beyond their control, some students have been residing for extended periods with adult family members or adult friends of the family who are not a parent or court-appointed guardian, and that, in some instances, the adult family member or adult friend has never been formally appointed as guardian by a court. OSSAA has concluded that an exception allowing athletic eligibility should be recognized in certain circumstances even though the student is not currently residing with a parent or a court-appointed guardian. When a member school determines that a student wants to participate in interscholastic athletics at the school, and the student is not currently residing with one or both of the student's parents or with a court-appointed guardian with legal custody of the student, but is instead residing with another adult family member or with an adult friend of the family, the school may nevertheless permit the student to participate in athletics at the school if:
- (a) the school verifies that the student has been residing with a responsible adult family member or adult friend of the family for one year or more prior to the student's first attendance at the school;
  - (b) the school has verified that the student has been lawfully enrolled at the school, and the ***Eligibility Record Form*** for the student has been reviewed and signed by the responsible adult with whom the student has been residing;
  - (c) the school has confirmed that the student is not residing with another adult family member or adult friend of the family for the purpose of establishing athletic eligibility away from the student's parents or the student's custodial parent;
  - (d) the student otherwise is eligible under all other applicable OSSAA eligibility rules and policies.

If the student has been residing with the other adult family member or adult friend of the family for less than one year, then a request for exception due to hardship or other qualifying circumstance must be submitted and approved before the student may be allowed to participate in varsity athletics. A complete explanation of why the student is not residing with a parent or court-appointed guardian, with appropriate supporting documentation, must be submitted with the request. A student who has been residing with another adult family member or adult friend of the family for less than one year may be permitted to participate in sub-varsity or junior high athletics as permitted for that student's grade level, if the ***Eligibility Record Form***, the ***Transfer Athletic Eligibility Form***, and other appropriate documentation has been completed, and the student otherwise is eligible under all other OSSAA rules and policies.

Once athletic eligibility has been established while the student is residing with another adult family member or an adult friend of the family, that responsible adult is treated as the student's parent or court-appointed guardian for OSSAA eligibility purposes. If the student later moves in with one or both of the student's parents, or with a court-appointed guardian, or with a different family member or family friend, and the student transfers or changes schools, then the student is not eligible immediately for varsity athletics, unless the student applies and receives approval for an exception due to hardship or other qualifying circumstance pursuant to OSSAA Rule 8, section 10.

- B. OSSAA additionally recognizes that a high school student who has reached the age of eighteen may choose to reside apart from the responsible adult(s) with whom the student previously had been residing when the student's athletic eligibility was established. Generally, a student in that circumstance is still considered to be eligible at the school or within the public school district at which athletic eligibility was established, even if the student chooses to reside in a different public school district or the designated geographic area for a different non-public member school. If the student then moves to a different school, the student would be required to sit out of varsity athletics for one calendar year following the change of schools.

If the student in this circumstance can establish that the change of schools was due to an unavoidable hardship beyond the student's control, then an exception allowing immediate varsity athletic eligibility may be requested, consistent with the procedures and criteria stated in the OSSAA Hardship Waiver Manual.

An exception due to hardship will only be permitted if the school can demonstrate that:

- (a) the student is lawfully enrolled at the school, the ***Eligibility Record Form*** for the student has been reviewed and signed by the student, and the ***Transfer Athletic Eligibility Form*** and other appropriate documentation has been completed;
- (b) the change of schools was due to an unavoidable hardship beyond the student's control;

- (c) the student has reached the age of eighteen, and is financially independent and residing without any financial assistance from the responsible adults(s) with whom the student previously was residing;
- (d) the student is not residing apart from the responsible adults(s) with whom the student previously was residing for the purpose of establishing athletic eligibility away from the student's previous school;
- (e) the student otherwise is eligible in all other applicable OSSAA eligibility rules and policies.

#### **XLII. ELIGIBILITY IN MULTI-HIGH SCHOOL DISTRICTS**

The Board of Directors has determined that all attendance areas in school districts with multiple high schools should be treated as separate districts for eligibility purposes and Rule 13 Section 5 should apply when the residence and migration of a student is made from one attendance area to another within the same independent school district.

#### **XLIII. JUNIOR HIGH/MIDDLE SCHOOL**

OSSAA does not conduct, endorse or approve district, regional, area, or statewide junior high grade level championships in athletics. Any awards given in an approved tournament or meet for school teams comprised of students at the seventh, eighth, and/or ninth grade levels shall not indicate that they are district, regional, area, or state championship awards. Organizers or sponsors of approved tournaments or meets may not publicize such events as district, regional, area, or state championships for junior highs or junior high grade levels, and shall invite school teams and not individuals from school teams.

Regardless of how a public school district has divided secondary school grade levels among different school sites, the school or schools with the most senior grades are deemed to be the voting member or members of the Association. Separate junior high or middle school sites that include the seventh, eighth, and/or ninth grades are not recognized as having separate or additional votes as member schools, but all interschool competition of teams from these grades are under the regulations of the Association. All separate attendance areas for junior high or middle school sites should be treated as separate districts for Rule 8 residence eligibility purposes.

Teams composed of students below the ninth grade may use students of any grade below the seventh grade, without such students being charged with a season of participation. Any such student must be eligible under OSSAA rules. The use of Association officials in matched or tournament games for such teams will be optional according to agreement of competing schools.

Schools that do not have a full four-year high school and have as much as the ninth grade are eligible for membership in the Association. Such schools are to be members of the Association to be eligible to compete with other member schools, at the appropriate levels in view of the grades offered by such schools.

In the absence of specific rules and policies applicable to competition at the seventh, eighth and ninth grade levels OSSAA's general rules and policies will apply.

#### **XLIV. CHARTER SCHOOLS**

A. Charter public secondary schools established within public school districts, including schools created pursuant to the Oklahoma Charter Schools Act, 70 O.S. § 3-130 *et seq.*, may seek membership in the Association no later than April 1 of the current school year. Membership, if approved, will begin with Fall of the next school year.

1. A Charter public secondary school seeking to join the Association in order to begin participating in a particular activity as a member school, will be asked to complete an application process (application form can be found at [www.ossaa.com](http://www.ossaa.com)). A minimum of the following must be included in the application:
  - a. official school name as listed on the Charter agreement along with all names and titles of school administrators;
  - b. the name of the authorizing agency for the Charter school;
  - c. the most recently calculated ADM for grades 9 through 12, or for a school that has not yet operated for a minimum of four consecutive years, the actual ADM for any grades 9 and above currently offered and a projected ADM for any grades 9 and above not currently offered;
  - d. a list of the activities in which the school will participate;
  - e. the number of coach(es) or sponsor(s) for the activities;
  - f. the competitive history of school teams and or individuals that have participated in activities
  - g. an approximate number of students expected to participate in each activity;
  - h. the geographic boundaries, for the Charter school within the school district in which it is located;
  - i. whether any students expected to participate have participated previously in that activity for another member school;
  - j. any meets, tournaments or contests in which the school will seek to participate;

- k. all policies, standards, criteria, or preferences applied, if any, for enrollment or admission to the school;
- l. any emphasis on particular curricular area, or on programs of instruction unique to the district in which the public charter school is located;
- m. the school's method for handling scholastic eligibility of student-participants;
- n. description of all physical facilities to be used in connection with activities;
- o. an estimate of the funds available to support the activity.

The school will further provide any supplemental information as might be helpful in determining the school's placement in an appropriate classification. A Charter public secondary school which at the time of application does not offer grades 9 through 12 at the high school level shall provide a projected ADM for any high school grades not currently offered and the actual ADM for any high school grades offered at the time of application.

- 2. Upon submission of the application, the OSSAA staff shall evaluate the information provided by the school and submit a report and recommendation for approval or deferment of provisional membership. Written notification will be provided to the applicant's administration.
- 3. In making the membership determination, the OSSAA Staff and Board will strive to ensure that the Charter public secondary school's students will have opportunities for safe and equitable competitive participation, and that the other schools in the classification in which the Charter public secondary school is placed are not substantially disadvantaged by the placement of the Charter public secondary school. Consistent with that purpose, the OSSAA Staff and Board may therefore consider other and additional factors that may impact safe and equitable participation opportunities for a particular Charter public secondary school seeking to participate and for the other schools within any classification under consideration.
- 4. In submitting the Classification Placement Form, the non-traditional school will acknowledge that its placement within a classification for a particular activity will be subject to review and reconsideration annually by the staff and the Board, and that additional or supplementary information may be requested from the school in connection with that review and reconsideration.

#### **XLV. ADMISSION OF NON-PUBLIC SCHOOLS TO MEMBERSHIP**

- A. Pursuant to OSSAA Rule 23, any non-public school offering instruction through grade 12 can be admitted to provisional membership upon a determination that the criteria established by that Rule, and any additional criteria established by the Board of Directors, have been met. This policy sets out the process for a non-public school seeking membership under this Rule and any additional criteria established by the Board of Directors. A non-public school seeking membership should review Rule 23 and this policy to determine if the school can comply with these criteria prior to applying for membership.
- B. A non-public school seeking membership pursuant to Rule 23 must submit an application to the Executive Director, on a form approved by the Board of Directors. (the form can be found on the OSSAA.com website) The following material should be submitted with the completed application form: Proof that the school is fully accredited by the State Board of Education, or other accrediting organization recognized by the State Board of Education;
  - 1. True and correct copies of the school's current scholastic eligibility requirements for athletic participation, and written admission policies and procedures;
  - 2. If tuition and fees are required to be paid, true and correct copies of the school's written payment policies and procedures;
  - 3. If financial aid and/or tuition and fee remission are available, true and correct copies of the school's written policies and procedures concerning financial aid and/or tuition and fee remission;
  - 4. True and correct copies of the school's written policies and procedures that require coaches and booster organizations at the school to be educated annually about OSSAA Rules on eligibility, and the school's written policies and procedures intended to insure that students participating in the school's athletic programs have maintained their amateur standing;
  - 5. Identification of any other athletic association(s) to which the school belongs or has belonged, and written certification from the association(s) that the school is or was a member in good standing and has not been found to have violated any of the rules and policies of that association;
  - 6. Written certification that the school has enforced age and periods of participation rules at least comparable to OSSAA, and that the school has not recruited or influenced students to attend the school for athletic purposes;
  - 7. A true and correct copy of the resolution from the school's governing board or authority pledging to abide by the Constitution, Rules, and Policies of OSSAA.
- C. In the application, the school shall state when the school wants to begin participation, the activities in which the school wants to participate, the classification levels that the school believes are appropriate, and the geographic

area that the school believes should be designated for residence eligibility purposes pursuant to OSSAA Rule 8. The following information must also be provided with the application to help determine the appropriate classification and designated geographic area for athletic eligibility purposes:

1. The average daily membership (ADM) of the school for grades 9 to 12 for the current or most recent school year and the previous two school years;
  2. Total enrollment capacity for the school in all grades in which instruction is offered, and by division within the school, together with any projected enrollment in grades 9 to 12;
  3. Identification of the public school districts and/or non-public “feeder” schools from which the school draws its students;
  4. Identification of the principal administrators of the school and a description of their prior experience as school administrators;
  5. Copies of brochures, other promotional materials, and advertisements used at present and during the previous two years by the school to attract or encourage students to enroll at the school;
  6. The amount and percentage of the school’s operating budget spent on athletics for the current or most recent school year and the previous two school years;
  7. Identification of any booster organizations for school athletic activities, along with the current officers of those organizations, and the amount and nature of any financial support provided by those organizations;
  8. The percentage of students in grades 9 to 12 participating in interscholastic athletic activities;
    - a. For each activity in which the school expects to participate as a member school:
    - b. A description of the physical facilities used and available for use by the school in connection with that activity;
    - c. identification of the coaches, paid and volunteer, and a description of their compensation and prior coaching experience; the number of years in which the school has competed in that activity;
    - d. the number of students participating in that activity during the current or most recent school year and the two previous school years;
    - e. event or contest schedules and results, including significant awards and honors given to individual participants from the school, for the current or most recent school year and the two previous school years.
- D. The application and supporting materials must be submitted on or before April 1 if the school wants to begin participation in the following fall school semester. Depending on when the application and supporting materials are submitted, a school intending to participate in football, dual team wrestling, fast pitch softball, Class 3A-6A spring baseball and/or soccer may not be permitted to participate in the championship playoffs or tournament in those activities during the first season following the application, because classifications and re-districting in those sports occurs on a two-year cycle and, in football, game schedules are often set long in advance of the season. Schools intending to participate in these sports should review OSSAA Rule 14 and consult with OSSAA staff about when the school may be able to begin participation in the championship playoffs or tournaments in those sports after membership has been approved.
- E. Upon receiving a completed application and supporting materials, OSSAA staff shall assess whether the school meets the criteria established under Rule 23 and this policy, and evaluate the school’s suggested classification level and proposed geographic area for eligibility purposes. OSSAA staff shall visit the school at least once to review records, to interview personnel, to inspect facilities, to assess the accuracy of information and material provided with the application, and to evaluate the appropriate classification and appropriate geographic area for residence eligibility purposes. More than one school visit may be scheduled to complete this assessment and evaluation.
- F. Based on this review and evaluation, the Executive Director shall make a report and recommendation to the OSSAA Board of Directors about whether the criteria have been met. If the Executive Director believes the criteria have been met, then written recommendations on the appropriate classification and appropriate geographic area for residence eligibility purposes also must be provided.
- G. The school’s application, and the Executive Director’s report and recommendations, shall be considered at a scheduled meeting of the OSSAA Board of Directors. The school shall be advised of the report and recommendations, and notice of the meeting at which the application is to be considered shall be provided to the school, at least five business days in advance of the meeting. Representatives of the school shall be provided the opportunity to be heard on the application at the meeting. After hearing on the application, and the Executive Director’s report and recommendations, the Board of Directors shall determine, by majority vote, whether the established criteria for provisional membership have been met.
- H. Provisional membership may be denied or withdrawn if it is determined that the school failed to submit any required information, or provided any false or misleading information in connection with its application or subsequent evaluation, or failed to cooperate in any evaluation process by OSSAA staff and designated representatives.

- I. If the Board of Directors has determined the established criteria have been met and provisional membership has been approved, then OSSAA staff shall conduct, prior to the school beginning competition, an orientation program concerning OSSAA Rules and Policies for the coaches, administrators, and officers of any booster organizations of the school. Coaches, administrators and officers of any booster organizations must attend this orientation program for the school to maintain its provisional membership.
- J. Upon approval of provisional membership, the school shall be assigned a mentor school. Administrators and coaching personnel of the mentor school should be available during the period of provisional membership to provide advice and answer questions for the provisional member school on establishing and administering policies and procedures to insure compliance with OSSAA Rules and Policies. The mentor school should not be a school that the provisional member school will or is likely to compete against in athletics, and preferably should be located within 100 miles of the provisional member school in the event that visits to the mentor school would be helpful to representatives of the provisional member school.  
During the two-year period following approval of provisional membership, OSSAA staff, and/or its designated representatives, may visit the provisional member school, or request written reports from the provisional member school, to assist in assessing compliance with OSSAA Rules and Policies. Administrators, teachers, staff, coaching personnel, and officers of booster clubs must cooperate and disclose such information if appropriate consent is given, or if legally compelled to do so by a court or OSSAA staff in providing information for these assessments, and OSSAA staff must be provided with reasonable access to school records for review. To the extent that any information provided or reviewed is supposed to be treated as confidential by law, OSSAA staff will maintain such information as confidential, and will only government agency, or if such information otherwise has been released or disclosed.
- K. If during the provisional membership period, the school is determined to have: failed to submit any required information; provided any false or misleading information in connection with its application or any subsequent evaluation; failed to cooperate in any evaluation process by OSSAA staff and designated representatives; or violated any OSSAA Rules or Policies; the school may be subject to penalties as provided in Sections I-C and I-D of these Policies or, for more serious violations, expulsion or denial of continued membership may be considered. Expulsion from provisional membership or denial of continued membership requires a written report and recommendation from the Executive Director, and a majority vote of the Board of Directors, and the school shall be provided notice in advance and an opportunity to be heard before any such vote. Expulsion from provisional membership or denial of membership should be considered only when the school's demonstrated failures and/or violations indicate an inability or unwillingness to comply with OSSAA Rules and Policies, or a pattern of practices inconsistent with the objectives and mission of OSSAA and its member schools.
  1. At the conclusion of the two-year period following approval of provisional membership, the Executive Director will make a report and recommendation to OSSAA's Board of Directors about whether provisional membership should continue, or whether the provisional status should end, or whether membership should be denied. In making this report and recommendation, the Executive Director must evaluate the following:
  2. The accuracy and validity of information provided or made available to OSSAA in evaluating the school;
  3. The effectiveness of the school's policies and procedures, and the school's enforcement of those policies and procedures, in insuring compliance with OSSAA Rules and Policies;
  4. If any violations of OSSAA Rules or Policies were found to have occurred during the period of provisional membership, whether the school responded in a cooperative and constructive manner;
  5. The continued appropriateness of the classification levels and the assigned geographic area for residence eligibility purposes;
  6. Whether the school's activities have been managed and conducted in a manner consistent with the objectives and mission of OSSAA;
  7. The Executive Director's report and recommendation shall be considered at a scheduled meeting of the OSSAA Board of Directors. The school shall be advised of the report and recommendation, and notice of the meeting at which the report and recommendation are to be considered shall be provided to the school, at least five business days in advance of the meeting. Representatives of the school shall be provided the opportunity to be heard on the report and recommendation at the meeting.

After hearing on the Executive Director's report and recommendation, the Board of Directors shall determine, by majority vote, whether the provisional status should end and the school should be deemed a full member in good standing, or whether provisional membership is continued for an additional period, or whether membership should be terminated. The vote of the Board of Directors shall be based on the factors evaluated as outlined above. Membership shall not be denied unless the school, by reason of demonstrated failures and/or violations of OSSAA Rules and Policies, has shown an inability or unwillingness to comply with OSSAA Rules and Policies, or a pattern of practices inconsistent with the objectives and mission of OSSAA and its member schools.

**XLVIII. REPORTING ADM FOR NON-PUBLIC SCHOOLS**

All non-public schools shall report their ADM from an end-of-the year statistical report certified by their outside accrediting agency. If an outside agency is not currently in use, then it is up to the school to have an outside agency certify their ADM.

**LXLIX. STUDENTS ENROLLED IN SUPPLEMENTAL ONLINE CURRICULUM OR FULL-TIME ONLINE CURRICULUM**

As provided in 70 O.S. § 1-111, as amended, students are considered to be in attendance while participating in a supplemental on-line course approved by the district board of education for that school.

If a student is enrolled in supplemental on-line courses, those courses also are included in determining whether a student is enrolled in the required minimum number of courses, and in determining whether that student has passed or is passing all courses, as required to maintain eligibility under OSSAA Rule 3.

As with other courses, if the student withdraws from or drops a supplemental on-line course after the first three weeks of the semester, the student then will be ineligible for a three-week period. To regain eligibility at the end of that three-week period, the student must be taking the required minimum number of courses, and must be receiving passing grades in those other courses.

A student enrolled in supplemental online courses may maintain athletic eligibility at a member school provided:

- a) The student is enrolled in the member school.
- b) The student is using the online curriculum approved by the local school board of the member school.
- c) The member school has a system in place to monitor progress and grades for the online course(s).
- d) The student is meeting the requirement to be enrolled in no less than 5 courses for grades 7-11 and no less than 4 courses for grade 12.
- e) The student must attend a minimum of one class per day on site at the member school.

Full-time virtual students shall not be permitted to participate in interscholastic activities and contests on behalf of member schools. A full-time virtual student is a student who is enrolled at a member school but receiving all instruction electronically at a location away from the member school's facilities. Full-time virtual students will not be counted in the school's ADM for classification purposes.

**L. MANDATORY ANNUAL ELIGIBILITY WORKSHOPS**

Failure to comply with OSSAA rules and policies on eligibility may have serious adverse effects on students and member schools. Revisions also may be made to these rules and policies each year. OSSAA Staff therefore will conduct face-to-face annual workshops on eligibility rules for representatives of all member schools during June and July of each year. An on-line annual eligibility workshop also will be made available through OSSAA's website starting July 15 of each year. All member schools are required to have at least one representative who is responsible for making eligibility determinations at that member school either attend a face-to-face workshop or complete the on-line workshop before the end of August each year. Each member school is required to maintain records verifying that a representative has completed one of the annual workshops each year as required.

If a member school has not complied with this annual requirement, the member school is suspended from hosting any play-off contests leading to a state championship in any activities in which school teams may be participating during the upcoming school year. The on-line eligibility workshop will remain available on OSSAA's website after the August deadline, so the suspension from hosting play-off contests will be lifted once the school verifies that a school representative responsible for making eligibility determinations has completed the on-line workshop.

**LI. DOCUMENT RETENTION POLICY**

To ensure that documents of the OSSAA are adequately maintained, protected and then discarded, in compliance with applicable federal, state and local laws, and as a matter of prudent business practices, the OSSAA has established a Document Retention Schedule. Documents include any written or electronic records created by the employees of OSSAA, the Board of Directors, or other committees in the course of their duties, responsibilities and activities related to the Association.

Documents should be retained and destroyed in accordance with the Document Retention Schedule. At least once per year the Executive Director shall designate a member of staff to identify documents that are to be destroyed in accordance with this policy. The documents selected for destruction should be cataloged and presented to the Executive Director for approval.

prior to destruction. Documents not listed on the Retention Schedule will be reviewed by the Executive Director to establish a retention period.

In the event OSSAA becomes aware of any official investigation by appropriate authorities or receives any subpoena or request for documents, the destruction of related documents will be suspended until the matter has been resolved.

## **LII. OPEN MEETINGS AND OPEN RECORDS (Title 25, Oklahoma Statutes §§ 301-314)**

### **A. OPEN MEETINGS OF OSSAA'S BOARD OF DIRECTORS AND INTERMEDIATE APPEALS PANEL**

1. Article IV, Section 4 of OSSAA's Constitution provides that meetings of OSSAA's Board of Directors shall be subject to the Open Meeting Law of the State of Oklahoma. All meetings of OSSAA's Board of Directors and its Intermediate Appeals Panel are to be open and conducted in a manner consistent with the provisions of the Oklahoma Open Meeting Act, including specifically the notice and agenda, voting and executive session requirements.
2. Executive sessions are permitted for discussing any matter where disclosure of information would violate confidentiality requirements of state or federal law. On occasion, generally on appeals of student athletic eligibility determinations, OSSAA receives private and confidential information concerning students and their families which is protected from disclosure by law or which OSSAA has agreed to maintain as confidential. Member schools and families also, on occasion, want to disclose and discuss private and confidential information concerning a student or the student's family during appeal hearings conducted before OSSAA's Board of Directors or its intermediate appeals panel.  
 Allowing disclosure of this private and confidential information in an open public meeting of OSSAA's Board of Directors or its intermediate appeals panel could discourage schools, students, and families from submitting information that would support athletic eligibility, and prevent OSSAA's Board and intermediate appeals panel from hearing all facts relevant to a determination. OSSAA's Board of Directors therefore has been, upon a motion made in open public session and approved by a majority vote, convening in closed executive session to hear and discuss private and confidential student and family information that may be relevant to the Board's determination.  
 Consistent with this practice, OSSAA's Board of Directors and its intermediate appeals panel may convene in closed executive session to hear and consider private and confidential student and family information that is protected from disclosure by law or which OSSAA has agreed to maintain as confidential.
3. No motions may be made, and no votes may be taken, on the determination of any issue during executive sessions.

### **B. PUBLIC ACCESS TO OSSAA RECORDS**

1. OSSAA is committed to making records of its operations available for public review, consistent with the provisions of Oklahoma's Open Records Act. All records of the association are to be made accessible consistent with the provisions of the Oklahoma Open Records Act.
2. Records specifically required by law to be kept confidential will be maintained as confidential and not be made publicly available. On occasion, generally on student athletic eligibility determinations, OSSAA receives private and confidential information concerning students and their families which is protected from disclosure by law or which OSSAA has agreed to maintain as confidential. Allowing disclosure of records containing or reflecting private and confidential information could discourage schools, students, and families from submitting information that would support athletic eligibility, and prevent OSSAA from receiving all facts that may be relevant to a determination. To protect the confidentiality of private and confidential student and family information protected by law, OSSAA has declined to produce records that contain or reflect information when those records have been requested, unless the private and confidential information could be redacted from those records prior to disclosure.  
 Consistent with this practice, OSSAA will continue to maintain as confidential all private and confidential student and family information which is protected from disclosure by law or which OSSAA has agreed to maintain as confidential. Records reflecting or containing private and confidential student and family information, including but not limited to any recording or transcript of an executive session of OSSAA's Board of Directors or its intermediate appeals panel, will not be made available for public inspection or disclosure if requested, unless the student and family have consented to disclosure or otherwise waived any claim to confidentiality, or unless a court has ordered disclosure of the information. If records containing private and confidential student and family information are subpoenaed in any legal proceeding, OSSAA will provide notice to the student's school of the subpoena, and to the student and family if OSSAA has contact information for the student and family, before producing those records.
3. Records concerning on-going investigations by OSSAA may be maintained as confidential, unless particular records are already publicly available. Personal notes made by individuals in the course of evaluating, or

considering any action or determination by OSSAA may be maintained as confidential and will not be available for public disclosure. Records that are protected by attorney-client privilege or by the attorney work product doctrine will be maintained as confidential and will not be available for public disclosure.

4. OSSAA may also maintain as confidential information technology records that disclose:
  - a. design or functional schematics that demonstrate the relationship or connections between devices or systems,
  - b. system configuration information,
  - c. security monitoring and response equipment placement and configuration,
  - d. specific location or placement of systems, components or devices,
  - e. system identification numbers, names, or connecting circuits,
  - f. business continuity and disaster planning, or response plans,
  - g. investigative information directly related to security penetrations or denial of services.

The above information technology records will not be available for public disclosure.
5. OSSAA may keep personnel records confidential: (a) which relate to internal personnel investigations including examination and selection material for employment, hiring, appointment, promotion, demotion, discipline, or resignation, or (b) where disclosure would constitute a clearly unwarranted invasion of personal privacy such as employee evaluations, payroll deductions, and employment applications submitted by persons not hired by OSSAA. The home address, telephone numbers and social security numbers of any person employed by or formerly employed by OSSAA will be maintained as confidential and not be available to the public.
 

Personnel records that are available include the employment application of a person who is hired by OSSAA, the dates of employment, and the title or position for that employee, and any final disciplinary action resulting in loss of pay, suspension, demotion of position, or termination.
6. For records that are available, OSSAA will make those records available for inspection during regular business hours at OSSAA's offices, or copies of requested records may be provided. OSSAA may charge a fee of no more than \$0.25 per page for the reasonable, direct costs of copying and producing requested records, and may decline to provide records if the fee is not paid. OSSAA may also charge a reasonable search fee if a particular record request would cause any excessive disruption in the essential functions of OSSAA, and may decline to search for requested records if the search fee is not paid.

### **LIII. BACKGROUND CHECKS FOR OFFICIALS**

1. As part of the annual enrollment process, OSSAA shall conduct background checks on all individuals who enroll as game or contest officials who have never previously been enrolled as game or contest officials for OSSAA athletic activities. Thereafter, all individuals who have previously been approved for enrollment and who are seeking to re-enroll shall undergo a background check at least every three years. OSSAA may from time to time conduct follow-up background checks on individuals enrolled as game or contest officials for OSSAA athletic activities.
2. OSSAA may retain an outside agency to conduct these background checks. The results of these background checks may be reviewed by OSSAA staff to determine if individual applicants are approved for enrollment as game or contest officials for OSSAA athletic activities.
3. OSSAA staff shall deny enrollment or revoke enrollment for any individual registered under the Oklahoma Sex Offender Act, the Oklahoma Mary Rippey Violent Offenders Act, or any similar acts in other states. OSSAA staff may deny enrollment or revoke enrollment for any criminal conviction revealed during the initial background check or any subsequent background check. OSSAA staff shall inform the person of its decision to deny or revoke enrollment in writing. The OSSAA staff shall state the reasons enrollment was denied or revoked.
4. Any person whose enrollment was denied or revoked may challenge and/or protest OSSAA staff's decision to deny or revoke enrollment. A challenge must be made within fourteen (14) days of the receipt of the correspondence from OSSAA staff denying or revoking enrollment. The challenge must be made to OSSAA's Executive Director in writing, and if information from the background check is being challenged as inaccurate, then correcting information must be included.

OSSAA's Executive Director shall review the denial or revocation and determine whether to affirm or reverse the OSSAA staff's decision. Within fourteen (14) days of the receipt of the challenge or protest, OSSAA's Executive Director shall respond in writing. If OSSAA's Executive Director affirms the OSSAA staff's decision, the individual may appeal that decision to the OSSAA Board of Directors at the next regularly scheduled OSSAA Board meeting. The OSSAA Board shall review the OSSAA Director of Officials' decision and determine whether to affirm or reverse. The appellant shall be notified in writing of the OSSAA Board's decision. The OSSAA Board's decision shall be final and shall not be subject to further review.

**LIV. USE OF PILOTLESS, REMOTE-CONTROLLED AERIAL VEHICLES AT EVENTS**

OSSAA does not approve of the use of pilotless, remote-controlled aerial vehicles, or “drones,” at interscholastic activities or events, whether such vehicles are operated by school representatives, parents, participants, spectators, or media representatives. The operation of pilotless, remote-controlled aerial vehicles at interscholastic activities or events may create an increased risk of injury to participants and spectators, and may create unwarranted distractions that affect the management and enjoyment of those activities or events.

If a pilotless, remote-controlled aerial vehicle is being operated at or in the vicinity of a member school activity or event, the persons responsible for officiating at the activity or event are authorized to suspend the activity or event. The person or persons responsible for managing the event or activity site should be contacted and advised of the presence and use of a pilotless, remote-controlled aerial vehicle at the site. The event or activity site manager is directed to make reasonable efforts to identify who is operating the vehicle and to cause the vehicle to be grounded safely or moved away from the activity or event site. Continuation of the activity or event may be suspended until the vehicle has been safely returned to the ground or has been moved a safe distance from the event or activity site.

A member school may choose to use, or permit the use of, a pilotless, remote-controlled vehicle at school practices in particular activities. That determination is left to the discretion of responsible administrators, coaches, and supervising sponsors at the member school. OSSAA recommends that a member school consult with the school’s insurer and legal counsel before using or permitting the use of such vehicles during school practices.

**LV. CONCUSSION AND HEAD INJURIES EDUCATION AND MANAGEMENT****A. Completion of Student Information Sheet**

Each school year, before a student at a member school is permitted to participate in athletic activities, including practices, the student and the student’s parent or guardian must complete and return a concussion and head injury information sheet to the school. The information sheet must inform the student and the student’s parent or guardian about the nature and risks of concussion and head injury in participating in athletic activity, including the risks of continuing to participate after sustaining a concussion or head injury, as provided by 70 O.S. § 24-155. (Effective November 1, 2016, a new State Statute regarding head injury was implemented)

This form may be completed and submitted to the school each year at the same time as the annual physical examination and parental consent form. A sample form for the concussion and head injury information sheet is available on OSSAA’s website. The school shall maintain copies of the completed forms.

**B. Removal from Participation and Return to Play After Suspected Concussion**

A student suspected of having sustained a concussion or other serious head injury during any sports activity, including during a practice, must be immediately removed from participation. A student who has been removed from participation because of a suspected concussion or other serious head injury is not permitted to return to practice or competition on the same day, unless the student has been evaluated by a licensed health-care provider trained in the evaluation and management of concussions and related injuries, and the student has submitted written clearance to return to participation from that provider.

**C. Graduated Stepwise Return to Participation**

Guidelines for team personnel and return to learn guidelines for teachers and relevant school personnel pertaining to students returning to practice or competition as well as the classroom shall be developed by each member school’s Board of Education.

**D. Game and Contest Officials**

Before working at any regular season and any post-season competition for students in grades 7-12 in football, basketball, wrestling, soccer, baseball, or softball, a game or contest official must have completed the on-line concussion management course available at [www.NFHSLearn.com](http://www.NFHSLearn.com). If a game or contest official suspects that a student has sustained a concussion or other serious head injury, the official should remove the student from participation.

**LVI. COMMUNICABLE DISEASES**

The proper handling of body fluid spills should be a concern of teachers, coaches, officials and student-athletes. All concerned individuals must be aware that any time there is blood and/or other body fluids present, there is the possibility of an infectious disease being transmitted. However, this possibility can be reduced if precautions are observed. A complete list of protocols and procedures can be found on the Sports Medicine link of OSSAA.com. policy when those situations do occur.

**LVII. EXTREME HEAT**

The OSSAA recognizes that heat related illness is the leading cause of preventable death in high school students participating in activities. The Board adopted the following policies:

**Acclimatization Period:** Whenever students are participating in an environment in which the temperature cannot be controlled there should be an acclimatization period. The acclimatization period is defined as the first 14 days of participation beginning with the first date of practice in that sport or activity, or the first date a participant begins practice, whichever is later. Any speed, strength, or conditioning programs shall not be considered a part of the acclimatization period. All students participating in athletics or activities, including those who arrive to preseason practice after the first day of practice, are required to follow the guidelines of the first days of the acclimatization period.

All athletic coaches and marching band directors are required to view *A Guide to Heat Acclimatization and Heat Illness Prevention* at [www.NFHSLearn.com](http://www.NFHSLearn.com), annually. A certificate of completion shall be kept on file for each coach or marching band director at the member school.

**A. Football (Mandates)**

1. Preseason practice shall be limited to 2 ½ hours per session with a minimum of one hour between practice sessions. No more than 5 hours of practice per 24-hour period will be allowed. There will be no physical activity during the one-hour rest period. Any time a coach is present during football practice, the time will count toward the maximum 5 hours, with the exception of strength training.
2. If a practice session is interrupted by inclement weather or heat restrictions, and it is required the session be divided for the good of the student-athlete's welfare the total practice time for the interrupted session may not exceed 2 ½ hours.
3. When multiple practices are conducted in the same day, it is required that either practice not exceed 2½ hours in length and students not participate in more than five total hours of practice activities, including walk-through sessions. Warm-up, stretching, cool down and conditioning activities are included as part of the practice time. Practices should be separated by at least one hour, where there is no physical activity between the end of the first practice and the beginning of the second practice.
4. Immediately prior to any practice, coaches are required to use a smart-phone APP, or other mechanism or program to get heat index, such as CoachSmart or the OSHA APP. There are also programs available on the Internet, such as AccuWeather, or Weather.com. These programs are free and can be used on any smart-phone, tablet, or computer. A chart outlining recommendations for making concessions for extreme heat is available on the OSSAA website; Schools must develop their own form to record the heat index each practice session.
5. All practices must be held under the supervision of a coach employed by the school.
6. Practices must always be conducted with an open water policy.
7. Cooling stations shall be made available for the athletes (buckets of cool water, wet towels, sponges, etc.)
8. Each program shall have a heat related emergency plan on hand at all times.

**B. Guidelines for Outdoor Activities:**

1. Athletic Coaches or marching band directors should use a smart-phone APP, or other mechanism or program to get heat index, such as or the OSHA APP. There are also programs available on the Internet, such as AccuWeather, or Weather.com. These programs are free and can be used on any smart-phone, tablet, or computer. A chart outlining recommendations for making concessions for extreme heat is available on the OSSAA website. Schools must develop their own form to record the heat index each practice session.
2. All practices should be held under the supervision of a coach, director, or sponsor employed by the school.
3. Practices should always be conducted with an open water policy.
4. Each program should have a heat related emergency plan on hand at all times.
5. Preseason practice should be avoided if possible between the hours of 12 p.m. and 6 p.m.
6. Parents and students should be educated on the importance of hydration during extreme heat conditions.
7. Cooling stations should be made available when possible (buckets of cool water, wet towels, sponges, etc.)
8. Equipment should be removed for conditioning.

**LVIII. INTERRUPTION OF EVENTS DUE TO PUBLIC HEALTH CONCERNS OR OTHER EMERGENCY CIRCUMSTANCES**

- A. On occasion, a state or local government authority or a local Board of Education/School Governing Board may, due to a specific public health concern or other emergency circumstances, cause a member school to be closed for a full school day or longer, which prohibits a member school team from participating in a scheduled regular season contest. School closing shall mean that the local health authority or Board of Education/Governing Board has cancelled all secondary school classes and school sponsored extracurricular activities for a minimum of one full school day due to a specific public health concern. In that event:

- i) If the results of the contest **would not** impact placement in a play-off bracket (volleyball, cross country, fall baseball, Class 2A, A or B fast-pitch softball, basketball, wrestling, swimming, slow-pitch softball, track and field, tennis, golf, Class A or B spring baseball, Academic Bowl, or Speech and Debate) the two schools should make all reasonable efforts to reschedule the contest at a different date and time within the regular season, but if the schools are unable to reschedule, the two schools may choose to cancel the contest;
- ii) If the results of the contest **would** impact placement in a play-off bracket (classes 2A-6A fast-pitch softball, football, dual wrestling, soccer, classes 3A-6A spring baseball) the two schools are required to make an effort
- iii) to mutually agree upon a date and time to reschedule the contest prior to the beginning of the play-offs in that activity. The agreement to reschedule should occur within 48 hours of the original contest. If the two teams are unable to agree on a rescheduled date and time:
  - (a) Placement in the play-off bracket shall be determined by won/loss percentage for all teams in the district, and marginal points shall not be considered in breaking ties between teams;
  - (b) If two or more teams are tied in won-loss percentage, the highest position in the district will be given to the team that won over the tied team(s); if the highest position cannot be determined according to the outcomes in head-to-head contests between the tied teams, the highest position in the district will be determined by lot.

If two or more tied teams are remaining after the highest position is determined, the next highest position in the district will be given to the team that won in head-to-head contests over the other remaining tied teams; if the next highest position cannot be determined according to the outcomes in head-to-head contests between the remaining tied teams, the next highest position in the district will be determined by lot. This same procedure will be repeated until all play-off positions for the district teams have been determined.

The OSSAA will set the procedure for determining placement by lot.

- B. If a decision by a state or local government authority, or by the State or local Board of Education/School Governing Board, concerning a specific public health concern or other emergency circumstances, interrupts the conduct, scheduling, or locations of play-off contests, the Executive Director is authorized to develop and execute a plan in the best interest of the membership to continue, reschedule, or relocate post-season play. The Executive Director's plan and determinations shall be considered valid and effective.

**LVIX. STATE LAW SIGNED BY GOVERNOR STITT REPLACES POLICY LVIII EFFECTIVE MARCH 30, 2022.**

**LX. ATTENDANCE AT NATIONAL FEDERATION ANNUAL MEETING**

Initially, it should be pointed out that proper staff development is paramount for OSSAA administrators and the National Federation setting provides one of the few available forums with the appropriate dialogue and exchange of ideas to stimulate a positive and continued growth of the organization. Additionally, Board of Director members require added insights as to trends, problems and the need for proper accountability - all of which are afforded at the annual National Federation setting. Due to the stated requirements and needs the following attendance policy should be followed:

1. OSSAA Staff should attend the NFHS Summer Conference and attend the appropriate scheduled workshops in their assigned areas.
2. The Board of Directors who will serve on the Board during the fall immediately after the NFHS Summer Meeting, will be permitted to attend the NFHS Summer Conference. Board members should attend workshop sessions that better enable them to function as the oversight committee for the OSSAA. The Board members should be prepared to share their gathered information at the August OSSAA Board Meeting.

If staff and board attend the meeting, their individual registration, travel, motel/hotel accommodations, meal allowance and small miscellaneous charges will be approved by the entire board at a regular meeting. Any person that attends the meeting other than staff and board will be at their own expense and will not receive any reimbursement from the OSSAA.
