

Proposed Release of ADM

The release of the 2021-22 ADM list for classification purposes for member schools to review has been postponed to August 4th. The data necessary to compile the ADM list is not currently available to allow the ADM list to be compiled prior to the Oklahoma Coaches Association Clinic on July 26th which has traditionally been the target date for release. However, this additional time will also allow the ADM data to be reviewed by OSSAA Staff to determine any possible COVID-year influence which could warrant adjusting ADM numbers for member schools prior to approval by the OSSAA Board of Directors. This delay does not change the August 11th target date for the OSSAA Board of Directors to approve the 2021-2022 ADM, Football Districts in 2022 and 2023, and Spring Baseball Districts for 2022 and 2023.
